Texture ▸ Influence

TODO

Update image

Texture influence settings.

Defines the settings of a Particle system spatial with a texture.

General

Time

Affect the emission time of the particles.

Lifetime

Affect the life time of the particles.

Density

Affect the density of the particles.

Size

Affect the particles size.

Physics

Velocity

Affect the particles initial velocity.

Damp

Affect the particles velocity damping.

Gravity

Affect the particles gravity.

Force Fields

Affect the particles force fields.

Hair

Length

Affect the particles length.

Affect the child hair length.

Clump

Affect the child clumping.

Kink

Affect the child kink.

Rough

Affect the child roughness.
