Color Mix Strip

The *Color Mix* effect strip mixes two strips by working on the individual and corresponding pixels of the two input strips.

This effect can do the exact same operation as the Add, Subtract, or Multiply effect strips but also other color blending modes.

Options

Blend

The Blend modes can be selected in the select menu. See [Color Blend Modes](#) for details on each blending mode.

Add, Subtract, Multiply, Screen, Divide, Difference, Darken, Lighten, Overlay, Color Dodge, Color Burn, Hue, Saturation, Value, Color, Soft Light, Linear Light

Opacity

The amount of the blend of the second image gets composed onto the first.
