

Track

| Reference |
|---------------------------------|
| Mode: Object Mode |
| Panel: Object ▸ Track |

These tools add a tracking constraint to the selected objects; the target object of the constraint will be the active object, which won't have a constraint added.

- [Damped Track Constraint](#)
- [Track To Constraint](#)
- [Lock Track Constraint](#)

Clear Track

Removes all Damped Track, Track To and Lock Track Constraints from the selected objects.

Clear and Keep Transformation (Clear Track)

Removes all Track Constraint from the selected objects, while keeping the final transform caused by them.
