Fill

Reference
Mode:
Sculpt Mode
Brush:
Sidebar ‣ Tool ‣ Brush Settings ‣ Advanced ‣ Brush Type

Similar to the Flatten brush, but only pushes surfaces upwards to the medium height.

Although `Ctrl` can be held to invert the effect to a Scrape brush, if *Invert to Scrape* is enabled. When disabled, the inverted direction will push surfaces away.

Unique

Invert to Scrape

    When enabled, holding `Ctrl` while sculpting changes the brush behavior to be the same as the *Scrape* brush. When disabled, holding `Ctrl` while sculpting, will push vertices below the cursor downward.
